Storage conditions : Keep only in the original container in a cool, well ventilated place away from : Direct sunlight, Heat sources. Keep container closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. Maximum storage period : 36 months Shelf life to guarantee the quality and properties of the product; After this period, it i recommended to control organoleptic and physicochemical properties before using the raw material. Storage temperature : $5 - 25 ^{\circ}$ C Exaflor Technical Data Sheet This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It	Precautions for safe handling	smoking and when leaving work. Provide good ventilation in process area to prevent formation
